

PREVENTATIVE MEDICATIONS

Generic Only List

Preventative medications can be an important part of maintaining good health and preventing more serious health issues in the future when taken as prescribed.

To help make this as easy and affordable for you as possible, your plan sponsor has worked with SmithRx to develop the preventive medication list. This preventive drug list is periodically reviewed and updated and contains a list of medications that are not subject to the deductible and covered at standard copay or \$0 copay.
